

AGM QR MOUNTS

COMMERCIAL GRADE WEAPON MOUNTS

AGM knows that your riflescope is typically only as reliable as your mounting solution, so AGM has sought out and partnered with one of the most reliable names in American-made mounting systems, American Defense Mounts. We offer numerous models, often specific to different thermal, digital and night vision scopes product families. Each are optimized in both height and length in order to offer experienced shooters as much flexibility as possible when utilizing our AGM rifle mounted optics on a multitude of the most common shooting platforms. All ADM-equipped mounts offer tightening adjustability with no tools required, which makes tightening in the field quick and easy.

- **Fast and easy installation**
- **Lightweight and durable all-metal design**
- **For mounting to any Weaver or Picatinny rails**
- **Easy-to-use adjustable brackets with torque preset**

AGM-2107

ADM Double Lever QR Mount for Comanche-40ER

AGM-2107 is the advanced base for AGM Comanche-40ER night vision clip-on and Secutor/Victrix/Python/Anaconda series of thermal scopes. AGM-2107 features two throw levers for added mount security. The quick release weapon mount attaches to the scope and affixes it to any Picatinny rail system without the use of additional tools or throw levers. The weapon mount is constructed of sturdy aluminum parts.
